Dear Mr. Young:

Thank you for helping us with our senior project we are very grateful for your services and willingness to assist us with our project on September 23, 2015. Your presentation on 3D scanning was much appreciated. The information in your presentation was intriguing. Our only regret is that we didn't have more time to discuss 3D scanning with you.

We hope that you enjoyed meeting the Springfield-Clark Career Technology Center senior CADD class.

Thank you again for taking the time to speak and work with us.

Sincerely,

Mitchell Dyar
